

JASON YOO

SUMMARY

Full-Stack Software Engineer with a strong foundation in computer science and mathematics. Proficient in developing dynamic mobile apps and websites using JavaScript, Vue, React, and Python. Modernized 20+ university labs by converting them from Matlab to Python, increasing accessibility and developed a R package for data visualization. Passionate about challenging sophisticated problems and coming up with the efficient solution.

TECHNICAL PROFICIENCIES

Frontend: JavaScript, React, React Native, TypeScript, Vue.js, HTML/CSS, Tailwind CSS

Backend & Database: Python, RESTful APIs, Django, Flask, MySQL, SQLite, MongoDB, Firebase, Supabase

Data Science & Machine Learning: R, TensorFlow, PyTorch, scikit-learn, keras

Tools & Other Languages: Git, GitHub, Notion, C++, C, Dart, Rust, C#, Go

EXPERIENCE

06/25 -	R package project	Dr.Matloff
	» Develop a package to draw decision boundaries for both parametric and nonparametric case using Delta method and Lagrange method.	
06/25 -	MATLAB to Python conversion project	Dr.Goldman
	» Convert labs from three courses written in MATLAB to Python.	
	» Find equivalent functions in Python or implement them ourselves.	
04/25 - 06/25	Teaching Assistant - Algorithm Design & Analysis	UC Davis
	» Guided students during weekly office hours, reviewing assignments, quizzes and exams	
	» Created grading rubrics and solution keys to grade assignments and provide constructive feedback	
	» Managed the course Q&A platform (Piazza) to provide support students	
01/25 - 06/25	Backend Developer - Dart	Social Impact
01/24 - 06/24	Backend Developer - Python, Vue.js	4point0.me
	» Developed a website for UC Davis students with GPA Calculator, Scheduler	
	» Implemented Login with Google API, Developed APIs for data handling	
	» Tokenizing Requests for Security	
01/24 - 06/24	Developer - C	Class Projects
	» Shell - Simple shell project implementing piping, output redirection	
	» Threads - Semaphore and preemption	
	» File System (MSFAT) - Mounting/Unmounting and Reading/Writing	
01/23 - 06/23	Frontend Developer - ReactNative	StudyGroupApp
	» Developed a studygroup app with Calendar, ToDoList	
	» Log in screen, Implementation of ToDo elements	

EDUCATION

2024 - Present	Master's Degree - Computer Science GPA: 3.900	UC Davis
2022 - 2024	Bachelor's Degree - Computer Science GPA:3.946	UC Davis
2022 - 2024	Bachelor's Degree - Mathematics GPA:3.946	UC Davis
